3 approaches to the core of beauty

AURAGE - the new generation ageing care that combines the vitality of plants that thrive under extreme environments with wisdom and technology of modern science. Pursue the core of beauty in just 3 approaches.

1

Delivering 「AC-11」^{※1}
into the epidermis with
nano-capsules

Extracted from Cat's Claw Vine found in the Amazon rainforest, AC-11 (Uncaria tomentosa extract) is contained in nano-sized capsules that can penetrate into the epidermal layer of the skin, achieving a supple and radiant complexion.

2

Protection from the
accumulation of skin damage
with 「ProgelineTM」^{※2}

「ProgelineTM」 was discovered while investigating the mechanism of the ageing process. This beauty ingredient helps to protect from accumulating skin damage, and helps to keep the skin smooth and youthful.

3

All rounded
ageing care with
「5 types of berries」^{※3}

Formulated with uniquely selected berries grown under adverse conditions, extracts from these 5 types of berries help to keep the skin firm, luminous and radiant.

"3+1" simple steps to moisturised, firm and radiant skin.

STEP 1

Regain clear skin
by removing
make-up and impurities
