Minuman buah Mulberi dengan D-Ribosa | 20ml x 40 sachets/paket
Mulberry Drink with D-Ribose | Net Weight / Berat Bersih:

REGAIN YOUR

CONFIDENCE

WAKAKU⁺

Our quality gives you reassurance

We're all familiar with the mantra "you are what you eat" and **WAKAKU⁺** is a true testament to this philosophy; brimming with NAD⁺ levels enhancing ingredients - RiaGev, it is the perfect fit for those who are looking to age and live healthily. The line-up of ingredients in **WAKAKU⁺** aim to provide good-for-you nutrients to safeguard your system while pairing it with a sweet, fruity taste derived from the concentrated essence of mulberries to level up your whole consuming experience.

Who Needs RiaGev?

Everyone needs RiaGev, especially those who are concerned with bioenergetics, wellness, and healthy aging. NAD⁺ levels in our body naturally decline as we age. Levels decline faster when - we are under stress, in an obese state, or with any type of disease. Enhancing NAD⁺ levels would counter those declining health conditions, and science shows taking RiaGev can increase NAD⁺ directly and more efficiently.

D-Ribose

D-ribose, as a natural component existing in all cells in living organisms, is closely related to the formation of adenosine and the regeneration of ATP, and is one of the most basic energy sources for life metabolism. Improve the quality of our daily life.

Vitamin B3

Known as the king in the skin care. Protects skin cells from damage caused by sun exposure.

Vitamin C

Known as the beauty nutrient, it helps you feel and look energised, giving you a healthy glow.
