These berries, known to be super fruits, are one of the key ingredients in our product. These five kinds of brightly-coloured berries with refreshing taste grow under adverse conditions, and we combine the extracts from these super fruits to obtain AND's exclusive formula.

The formula is made up of niacin and soy peptide, a high-quality protein. In addition, it also consists of AC-11^{※2}, which has recently garnered attention as a beauty ingredient.

※1 Niacin is a nutrient that contributes to the maintenance of your skin. It is also known to help release energy (from proteins, fats and carbohydrates), reduce fatigue and contribute to the normal functioning of the nervous system.
