# Super Euglena Paramylon ARX

POINT

1

Formulated using euglena with  
paramylon content

55% more than

What is paramylon?

Paramylon is a unique constituent of euglena. Containing an uncountable number of micro-pores in its sponge-like structure, it functions like dietary fibre. Its special feature is that it is white in colour.

Cross section  
of paramylon  
(illustration)

It is said that  
paramylon is an  
ingredient which can  
cleanse your body.

POINT

2

The “white euglena” used  
is a raw ingredient specially developed and  
cultivated for this product.
